

RYC is using a QR (Quick Response) system to log people in and out of the Club to aid in Covid-19 tracing.

A QR code consists of black squares arranged in a square grid on a white background, which can be read by an imaging device such as a camera or a QR Reader on a mobile phone. This will then prompt the user to connect to a Web-page (in our case to our [Covid Comply web page](#)).

On both Apple and Android phones you need to first download a **QR Reader** application from the **App Store** for iPhones or on **Google Play** for Android Phones.

Once you have downloaded one of the free QR Reader applications, you should allow the QR Reader to take pictures and record video using your phones camera.

When you arrive at the RYC Club you can then use your camera to scan the QR picture and it will prompt you to connect to the [Clubs QR website](#)

If you save your phone number and email address in your own contract details, the browser should prompt you to use these default values when filling in the on-line form.

We ask that you also please “Checkout Now” when leaving the Club as this will assist us in tracing of contacts.
